EDUCATION

Bachelor of Engineering (Mechanical) SAMS College of Engineering and Technology

06/2018 - 06/2022

8.00

Diploma in Shipping and Port Management SAMS Group of Institution

09/2014 - 06/2016

HSC National Institute of Open Schooling

06/2016 - 05/2017

PROJECTS

Low Cost Anti Lock Braking System

- Anti Lock Braking System is used in vehicles for smooth braking of vehicles. Major pros are replacement of defective part were easy, low manual power, no oil wastage.

Investigation Of Railway Track Detector Using Ultrasonic Sensor

- Rail transport occupies a leading position in India in reducing a fast-growing economy's growing needs. Due to changes in the season the slopes contract and extend. Because of that, cracks on the track can develop. This proposed system detects the cracks and obstacles on the track via sensors and uses a GSM and GPS module to alert the control room via an SMS.

WORK EXPERIENCE

Document Specialist iMarque Solutions Private Limited

06/2017 - 04/2018

Puducherry

Achievements/Tasks

- Trained employees on efficient documentation usage
- Utilize MS Access and proprietary database systems to manage documentation.
- Review documents for accuracy and compliance with standards.

SKILLS

Critical Thinking

Flexibility

EXPERTISE SPHERE

Programming Languages

Java, HTML, CSS, Javascript, Python

Operating System

Windows - 10, 8, Android

Tools

Visual Studio Code, Android Studio

Computer Proficiency and Skills

MS - Office, OOP Concept, Problem Solving, Word Press

CERTIFICATES

Honours Diploma in Computer Programs.

Graduated from Computer Software College (CSC)

Application Development using Python

By GUVI - as a part of AI for India event

Digital Marketing Program

By Intershala
